Studio gross yield 5.7% / net 3.8% — 1-bed gross 5.3% / net 3.4%. Both run negative leveraged CF at 90% MOF — normal for Mont Kiara. Studio top-up is half the 1-bed's.

10-Year Total Return (90% MOF, exit Yr7+ — 0% RPGT)

Component	Studio 7-Yr	1-Bed 7-Yr
Cumulative Net Cash Flow	–RM 38,000	–RM 67,000

NET TOTAL RETURN	~RM 31,700	~RM 29,100
Annualized ROI on Cash	~7.9%	~5.3%

Studio delivers better annualised ROI on cash (7.9% vs 5.3%) due to lower capital base. 1-bed delivers higher absolute gain. NEVER sell before Yr6 — 30% RPGT in Yr1-3 wipes the return.

Strategy 2: BRRRR

Studio 462 sq ft — Entry RM 365K (distressed listing)

Phase	Detail	Amount
BUY	Distressed price	RM 365,000
BUY	Stamps + Legal	RM 10,450
RENOVATE	Full cosmetic reno (RM 100 psf × 462)	RM 46,200
RENT	Post-reno monthly rent	RM 2,100
REFINANCE	ARV (RM 910 psf × 462 = RM 420,420)	RM 420,420
REFINANCE	Refi 80% of ARV	RM 336,336
REFINANCE	Original loan (90% × RM 365K)	RM 328,500
REPEAT	Cash returned from refi	RM 7,836
REPEAT	Cash left in deal	~RM 87,000

70% Rule: RM 411K ≤ 70% × RM 420K = RM 294K → FAIL. ARV confidence is LOW. Post-refi CF ≈ –RM 200/mo (manageable).

★ 1-Bed 633 sq ft — Entry RM 450K (below-median listing) ← Key Opportunity

Phase	Detail	Amount
BUY	Below-median price (RM 711 psf — RM 155K below median!)	RM 450,000
BUY	Stamps + Legal	RM 12,150
RENOVATE	Full cosmetic reno (RM 100 psf × 633)	RM 63,300
RENT	Post-reno monthly rent	RM 2,600
REFINANCE	ARV (RM 920 psf × 633 = RM 582,360)	RM 582,360
REFINANCE	Refi 80% of ARV	RM 465,888
REFINANCE	Original loan (90% × RM 450K)	RM 405,000
REPEAT	Cash returned from refi	RM 60,888
REPEAT	Cash left in deal	~RM 64,562
EQUITY	**Instant equity (ARV vs all-in RM 525.5K)**	**RM 56,800 (10% of ARV)**

This is the most compelling deal in the analysis. Buying RM 98K below transacted median before renovation — real equity at purchase. 70% rule still fails but the structure is meaningfully better. Verify the RM 450K listing with the agent immediately — confirm reason of sale, floor, facing, condition.

Strategy 3: Renovate & Resell (Flip)

Both units: NOT recommended at current prices.

P&L Item	Studio 462 @ RM 365K	1-Bed 633 @ RM 450K
ARV (renovated)	RM 420,000	RM 582,000

Less: Stamps + Legal	–RM 10,450	–RM 12,150
Less: Holding Costs (5 mo)	–RM 5,500	–RM 7,000
Less: Selling Costs (~4%)	–RM 16,800	–RM 23,280
GROSS GAIN (pre-RPGT)	–RM 23,950 (LOSS)	RM 26,270
RPGT @ 30% (sold Yr1-3)	RM 0 (loss)	–RM 7,881
NET PROFIT	–RM 23,950 ■	~RM 18,389 ■
Profit Margin on ARV	Negative	3.2% — target is >10%
Flip Score	38/100	42/100

Flip doesn't work for either unit. 881-unit project limits resale premium; RPGT 30% in Yr1-3 is fatal. If you buy the RM 450K 1-bed, HOLD it — don't flip.

Recommendation

Buyer Profile	Best Pick	Why
Lower budget / 1st property	Studio 462 @ RM 400K	RM 57K cash-in, RM 419/mo top-up
Distressed hunter / BRRRR	1-Bed 633 @ RM 450K ★	RM 98K below median = rare equity
Widest tenant demand	1-Bed 633 @ RM 548K	More expat family / couple demand

Max yield%	Studio 462	5.7% gross vs 5.3% for 1-bed
3rd+ property (70% MOF)	Pause — stress-test DSR first	Cash-in RM 130K–178K
Short-hold / flip	Pass — both units	Negative or sub-3% margin

Next Steps

1. Studio 462: Inspect RM 365K distressed listing. If decent condition (mid floor+, reasonable facing), target RM 365–385K.
2. 1-Bed 633: Verify the RM 450,000 listing URGENTLY — ask agent for floor, facing, condition, reason for sale. If genuine, this is the best deal.
3. Confirm property count (1st/2nd vs 3rd+) with your banker before signing anything.
4. Request JMB management account + sinking fund balance. Building is 10 years old — check maintenance spend.
5. Get a licensed panel valuer's pre-approval for ARV before committing to any BRRRR refi.
6. Negotiate 5–10% below asking — 105 sale listings + 125 rental = strong buyer leverage.
7. Run /realestate mortgage on chosen unit + price for full DSR + Islamic vs conventional breakdown.
