Category Analysis

1. Price & Value — Winner: Kiaraville

Kiaraville at RM 660 psf transacted is RM 214 psf cheaper than Astrea (RM 874 psf). On a 1,593 sq ft unit, that's RM 341K less for more space. However Kiaraville shows -2.4% YoY psf — mild depreciation signal. Astrea asking aligns closely to transacted = fair pricing with no premium overhang.

2. Property Specs — Winner: Astrea

Astrea (2023): brand-new UEM Sunrise quality, dual facility decks (Stella Deck 8F + Astrea Deck 36F with sky lounge, sky gym, yoga, sunken pods), smart home features. Kiaraville (2008): 18 years old, larger unit sizes (up to 3,935 sq ft = big win for families), low-rise boutique feel, but dated facilities.

3. Rental Income — Winner: Astrea

Astrea: RM 5,000–9,000/mo, ~4.5–5.5% gross yield at RM 1.16M entry. New product commands rent premium. Kiaraville: ~4.71% yield (slipped from 5.22% in 2022). Both benefit from MK's deep expat tenant pool (GIS, MKIS nearby).

4. Neighbourhood — Tie (84/84)

Both in Mont Kiara core: GIS, MKIS, 1 Mont Kiara, Plaza Mont Kiara, Solaris Dutamas, SPRINT access. Neither has walkable MRT. Genuinely tied.

5. Investment Potential — Winner: Astrea

Astrea: new stock, brand recognition, stable-to-rising psf. Foreign buyer RPGT: 30% Yr1–5, 10% from Yr6. Kiaraville: value-add reno potential on older larger units; -2.4% YoY psf is a yellow flag; 404 units = more resale competition.

6. Cost of Ownership — Winner: Astrea

Astrea: RM 0.35 psf/mo = RM 477/mo on 1,364 sq ft. New build = minimal CapEx risk near-term. Kiaraville: RM 0.40 psf/mo = RM 637/mo on 1,593 sq ft + 18-year-old M&E; risk (lifts, HVAC, water tanks). Request sinking fund account balance before committing to Kiaraville.

7. Market Position — Winner: Astrea

Astrea: 132 for sale / 139 for rent — active but manageable. Stable pricing. Kiaraville: 252+ listings for sale, rental yield trending down. Buyer has strong negotiating leverage — but signals softer demand.

8. Risk Factors — Winner: Astrea

Astrea: minimal M&E; risk (new); UEM Sunrise track record strong. Main risk: single tower on 2.4 acres = all 240 units competing internally on resale. Kiaraville: 18-year M&E; risk (commission professional inspection); -2.4% YoY psf; 404 units = more competition. Both: foreign RPGT 10%+ from Yr6.
